How to set up a virement to the chaplaincy at your French bank

To set up a SEPA (a permanent virement) you should go to your bank's internet banking site, or contact your local branch. To set up our chaplaincy as a beneficiary, you will need to quote our bank details. These are listed below.

Please make sure that you identify yourself in the remarks box on the website of your bank so that we know who is sending us the donation. That enables us to produce an accurate reçu fiscal on your behalf at the end of the financial year.

It will then probably take a day or two for your bank's security systems to confirm the process.

Please note: If you need to change your commitment during the year, please just let the treasurer know.
